WERE YOU BORN TO BE A LEADER?

Here is your chance to prove it.

You've spent four years of college behind a desk. Want to spend the rest of your life behind one? We didn't think so. **You're hungry for a career that maximizes your talent**, challenges you to take on a leadership role...and gives you an adrenaline rush in the process. **You've just found it.** While the Navy takes you across the sea, through the air, below the surface and over the land, it also puts you **in command** of cutting-edge technology. Advanced systems. Billions of dollars in aviation, submarine and surface ship equipment.

Envision yourself as a Navy Officer. Take on monumental responsibilities while your counterparts in the civilian world are still working to get their careers off the ground. Do more in a few short years than most people do in a lifetime. **Take a deep breath.** Feel the rush of real life. It's time to lead the world.

TAKE TWO MINUTES. SHAPE YOUR LIFETIME.

This time next year, where will you be? Behind a desk in an anonymous office setting? Or sailing into Barcelona just in time to catch the sunset and a late supper? Hear that little voice in your head? The world is calling you.

What have you done for your life today?
Give it a rush.
